CROWDSTRIKE

BREACHES STOP HERE

CLOUD-DELIVERED ENDPOINT PROTECTION

CROWDSTRIKE FALCON:
THE NEW STANDARD IN ENDPOINT PROTECTION

AUTOMATICALLY PREDICT AND PREVENT THREATS IN REAL TIME

The CrowdStrike Falcon® platform's single-lightweight-agent architecture leverages cloud-scale artificial intelligence (AI) and offers real-time protection and visibility across the enterprise, preventing attacks on endpoints on or off the network. Powered by the proprietary CrowdStrike Threat Graph® database, CrowdStrike Falcon correlates trillions of endpoint-related events per week in real time from across the globe, fueling one of the world's most advanced data platforms for security.

THE CROWDSTRIKE DIFFERENCE

SINGLE LIGHTWEIGHT AGENT

Provides frictionless deployment and stops all types of attacks while eliminating agent bloat and scheduled scans

CLOUD-NATIVE PLATFORM

Leverages the network effect of crowdsourced security data while eliminating the management burden of cumbersome on-premises solutions

PROPRIETARY THREAT GRAPH

Uses cloud-scale AI and rich contextual relationships from multiple telemetry sources in a massive distributed graph database that accurately predicts and prevents threats to stop breaches with no human interaction required

CROWDSTRIKE FALCON: REDEFINING SECURITY FOR THE CLOUD ERA

They said it was impossible to provide complete endpoint protection using a single lightweight agent with no impact on user performance.

CrowdStrike proved them wrong. With the revolutionary cloud-native CrowdStrike Falcon security platform, **it is possible to:**

Prevent both commodity and sophisticated attacks — whether they use malware or not, regardless of whether your endpoints are online or offline

Gain real-time endpoint visibility and insight into applications and processes running anywhere in your environment, ensuring that nothing is missed and everything that requires a response gets one

Proactively hunt down advanced threat activity — faster and more effectively than ever before

Protect all workloads, from mobile devices to traditional endpoints running Windows, macOS and Linux, as well as cloud workloads, servers and containers in modern hybrid multi-cloud data centers

Eliminate the bloat and massive performance impact that comes with legacy antivirus solutions, replacing it all with a single lightweight agent built for speed

UNRIVALED PLATFORM

FALCON INSIGHT™ | ENDPOINT DETECTION AND RESPONSE (EDR)

Delivers continuous, comprehensive endpoint visibility and automatically detects and intelligently prioritizes malicious activity to ensure nothing is missed and potential breaches are stopped

FALCON PREVENT™ | NEXT-GENERATION ANTIVIRUS

Protects against all types of threats, from malware and ransomware to sophisticated attacks, and deploys in minutes, immediately protecting your endpoints

FALCON FIREWALL MANAGEMENT™ | HOST FIREWALL

Delivers simple, centralized host firewall management, making it easy to manage and control host firewall policies

FALCON DEVICE CONTROL™ | USB DEVICE VISIBILITY AND CONTROL

Provides the visibility and precise control required to enable safe usage of USB devices across your organization

FALCON OVERWATCH™ | MANAGED THREAT HUNTING

Partners you with a team of elite cybersecurity experts to hunt continuously within the Falcon platform for faint signs of sophisticated intrusions, leaving attackers nowhere to hide

FALCON DISCOVER™ | IT HYGIENE

Identifies unauthorized accounts, systems and applications anywhere in your environment in real time, enabling faster remediation to improve your overall security posture

FALCON SPOTLIGHT™ | VULNERABILITY MANAGEMENT

Offers security teams an automated, comprehensive vulnerability management solution, enabling faster prioritization and improved remediation workflows without resource-intensive scans

FALCON FORENSICS™ | FORENSIC CYBERSECURITY

Automates collection of point-in-time and historic forensic triage data for robust analysis of cybersecurity incidents

FALCON COMPLETE™ | MANAGED DETECTION AND RESPONSE (MDR)

Stops and eradicates threats in minutes with 24/7 expert management, monitoring and surgical remediation, backed by the industry's strongest Breach Prevention Warranty

FALCON X™ | THREAT ANALYSIS SERVICE

Automates threat analysis, enabling security teams to learn from encounters with adversaries and use that knowledge to protect against future attacks

FALCON X RECON™ | DIGITAL RISK PROTECTION

Monitors potentially malicious activity across the open, deep and dark web, enabling you to better protect your brand, employees and sensitive data

FALCON X PREMIUM™ | CYBER THREAT INTELLIGENCE

Delivers strategic reports and tactical indicators of compromise that provide insight into every aspect of the threat actors that are targeting your organization

FALCON MALQUERY™ | MALWARE SEARCH

Dramatically increases the speed of malware research, enabling teams to quickly implement defensive measures, understand attackers' motives and even download related files for further study

FALCON SANDBOX™ | MALWARE ANALYSIS

Provides visibility into malware behavior, automating in-depth file and memory analysis for faster threat protection and response

FALCON HORIZON™ | CLOUD SECURITY POSTURE MANAGEMENT

Streamlines cloud security posture management across the application lifecycle for multi-cloud environments, enabling you to securely deploy applications in the cloud with greater speed and efficiency

FALCON CLOUD WORKLOAD PROTECTION

Provides comprehensive breach protection across private, public, hybrid and multi-cloud environments, allowing customers to rapidly adopt and secure technology across any workload

FALCON IDENTITY THREAT PROTECTION

Delivers the industry's best real-time, identity-based attack detection and prevention, incorporating behavioral, risk, identity and hundreds of other analytics to stop credential compromise and identity store attacks

CROWDSTRIKE ZERO TRUST

Enables frictionless Zero Trust security with real-time threat prevention and IT policy enforcement using identity, behavioral and risk analytics to stop breaches for any endpoint, workload or identity

HUMIO LOG MANAGEMENT AND OBSERVABILITY

Delivers an advanced, purpose-built log management platform that makes exploring and investigating all data flexible and blazing fast — with minimal maintenance and training costs, and remarkably low compute and storage requirements

CROWDSTRIKE SERVICES | IR AND PROACTIVE

Delivers pre- and post-incident response (IR) services 24/7 to support you before, during or after a breach, with skilled teams to help you defend against and respond to security incidents, prevent breaches and optimize your speed to remediation

CROWDSTRIKE STORE | CLOUD-SCALE OPEN ECOSYSTEM

Offers an enterprise marketplace of technology partners where you can discover, try, buy and deploy trusted CrowdStrike and partner applications that extend the CrowdStrike Falcon platform, without adding agents or increasing complexity

CROWDSTRIKE:
TRIED, TESTED, PROVEN

With CrowdStrike, you can be confident that your organization is finally protected from cyberattacks — known or unknown, with or without malware. Hear what the experts are saying about the CrowdStrike Falcon platform:

A LEADER

- Gartner Magic Quadrant for Endpoint Protection Platforms, 2021

- Highest scorer for "Lean Forward" organizations (Type A) in Gartner Critical Capabilities for Endpoint Protection Platforms, 2021

- Forrester Wave report for Managed Detection & Response, 2021

- Forrester Wave report for External Threat Intelligence Services, 2021

- Ranked #1 for IDC Modern Endpoint Security Market Share Worldwide, 2021

- Named a 2019 Gartner Peer Insights Customers' Choice for Endpoint Protection Platforms

- Named a 2020 Gartner Peer Insights Customers' Choice for Endpoint Detection and Response Platforms

*Gartner does not endorse any vendor, product or service depicted in its research publications, and does not advise technology users to select only those vendors with the highest ratings or other designation. HUMIO: LOG EVERYTHING, ANSWER ANYTHING, IN REAL TIME

Humio's flexible, modern architecture improves the log management experience for organizations by enabling complete observability to answer any question, explore threats, review production anomalies across distributed systems, and gain valuable insights from all logs in real time.

Humio, a CrowdStrike company, offers low total cost of ownership and unlimited plans, with easy deployment at any scale with hybrid options enabling user autonomy to choose where they want ingested data to reside.

A LEADER

- Gartner Cool Vendor in Performance Analysis, 2020

- Humio named as a leader across eight categories in the Digital Enterprise Journal 2020 IT Performance report

- Humio included in 2019 and 2020 Accel Euroscape report
